**INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56 and 37 CFR §1.97**

Commissioner for Patents
Washington, D.C. 20231

Sir:

Submitted herewith on Form PTO SB/08 is a listing of documents known to Applicant in order to comply with Applicant's duty of disclosure pursuant to 37 CFR 1.56. A copy of each listed document is being submitted to comply with the provisions of 37 CFR 1.97 and 1.98.

The submission of any documents herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicant does not waive any rights to take any action which would be appropriate to antedate or otherwise remove as a competent reference any document which is determined to be a prima facie prior art reference against the claims of the present application.

TIMING OF THE DISCLOSURE

The instant Information Disclosure Statement is believed to be filed in accordance with 37 C.F.R. 1.97(b), prior to the mailing date of a first Office Action on the merits (first scenario). If that is not the case, such as in a second scenario in which a first Office Action on the merits has been mailed before the filing of the instant Information Disclosure Statement, then either a certification or fee is required, and a certification is provided below. If neither of the first or second scenarios is the case, such as if a final Office Action or a notice of allowance has been mailed by the PTO (third scenario), then both a certification and fee are required, and in that case a certification is provided below and also the PTO is authorized to obtain the necessary fee to have the instant IDS considered, from Foley & Lardner Deposit Account #19-0741.

CERTIFICATION

The undersigned hereby certifies in accordance with 37 C.F.R. §1.97(e)(1) that each item of information contained in this Information Disclosure Statement was first cited in a communication from a foreign patent office in a counterpart foreign application not more than three (3) months prior to the filing of this Statement.

RELEVANCE OF EACH DOCUMENT

A translation of a portion of a Japanese Office Action that issued February 12, 2003 with respect to a counterpart Japanese patent application is provided below.

"Note

(For a list of the cited literature, see the List of Cited Literature.)

Claims: 1 through 10
Cited Literature: 1, 2

Remarks

Described in Cited Literature 1 and 2 is a technology that records a program broadcast from a broadcasting station based on a recording request received from a client, and that delivers said recorded program based on a delivery request from the client for said program. Claims 1 and 2 [of the present application] could have been easily conceived by a person skilled in the art from the

descriptions in either Cited Literature 1 or 2. Refer specifically to the description in (0012) of Cited Literature 1 and in (0024) of Cited Literature 2 regarding technology in which the server records a program based on a record request.

Moreover, Claims 3 through 10 could also have been easily conceived by a person skilled in the art from the technologies described in Cited Literature 1 and 2. The fact that, when storing the program data, the corresponding storage time and program name are attached and stored, and the fact that the program data stored when conducting delivery processing is continuously delivered are features that could be suitably selected by a person skilled in the art.
